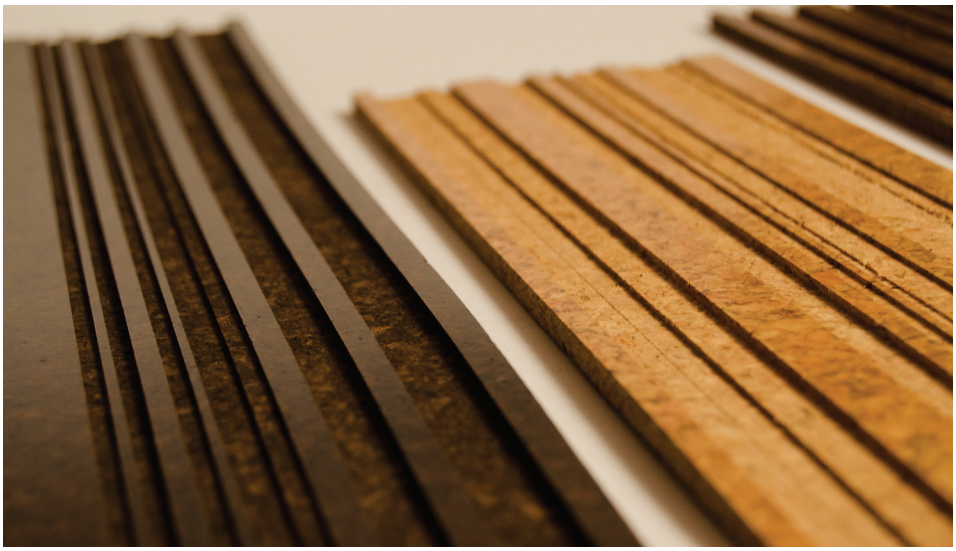
ZANDUR

Product Abstract

Tavos Cork Wall Planks



- Made from 100% recycled and renewable cork
- Superior acoustical properties compared to most wood and vinyl products
- Qualifies for numerous LEED credits
- Meets CA 01350 Indoor Air Quality tests required for CHPS
- Extremely durable
- Low-maintenance
- Safe, Red List Chemical Free, anti-bacterial
- Problem solver (industry leading slip resistance and acoustical performance)

Designed to enhance any interior with the natural characteristics of cork in a three-dimensional plank, Tavos Wall Planks are perfect for feature panels or entire rooms. Tavos Planks are made from 100% natural cork. Subtle tonal changes in the product are created through the baking process adding to the unique character of the product. The patented process allows Zandur to create cork wall planks that have a unique lineal pattern, superior acoustical ratings, flexibility and a totally unique visual design.

Zandur Wall planks are an excellent choice for lobby feature panels or other areas where a natural, acoustically beneficial finish is desired including corporate or hospitality projects. The product may be installed over drywall and other properly prepared substrates including curved surfaces.

Red List Free

Product Abstract Tavos Cork Wall Planks

Available Formats

Thickness: Standard 3/16″ and 5/16″
Sizes: 3.9″ x 35.4″, 5.9″ x 35.4″

Other dimensions available on request.

Suggested Applications

- Health Care
- Offices, General Commercial
- Retail Stores
- Hospitality, Restaurants, Hotels

General Installation

Concrete & Plywood
Install over smooth wood or drywall substrate using Zandur #40 contact adhesive

Maintenance
Product may be wiped down with a damp rag and dusted as required.

Product Benefits

Low Reflectivity
The texture of the product reduces glare and reflection which is particularly important for assisted living applications.

Acoustically Beneficial
The cork component significantly enhances acoustical benefits reducing ambient sound levels. Its acoustic properties are superior to other wallc overing product such as wood.

Flexible
Compared to many other acoustical wall covering options, the product may be installed on curved substrates.

Easy to Maintain
Dust or wipe down with damp rag. The product is extremely stain resistant.

Safe
Tavos meets all US and International standards for Fire and Smoke Resistance. Additionally, it is anti-microbial and Red-List Chemical Free.
